

Salute to Volunteers

GOOD SAMARITAN MEDICAL CENTER

Mary Lagnado

Mary Lagnado was always interested in the medical field. Thankfully, this natural curiosity led her to Good Samaritan Medical Center, where she has been volunteering in the Comprehensive Breast Center and Medical Staff Office for about two years. Lagnado has clocked more than 300 volunteer hours at the hospital and made significant contributions to the development of an extensive Comprehensive Breast Center Library.

Utilizing her professional skills as a former legal assistant, Lagnado compiled a complete list of culturally appropriate references on breast cancer for patients. She orders all materials for the library and formulates and maintains a data base of information. In addition, she compiles materials for the Breast Centers Advisory Board meetings and contributes her time to auxiliary fundraising activities at Good Samaritan Medical Center. It is with sincere appreciation that Good Samaritan Medical Center recognizes Mary Lagnado for her commitment to the hospital and improving patients' lives through education and research.
